

I would like to see the no call law expanded to include the prohibition of long distance telephone company solicitations and fund raisers. Tday's families get so little time to spend together as it is. No one wants more telemarketers of any kind calling them. I have an unlisted phone number, but they still call because they use computer generated phone number lists. I can put a sign on my front door saying "no solicitors", why can't I do the same for my telephone to maintain the sanctity of my home? Please stop all of it.
